Mr. William K. Warren, Jr., Chairman Emeritus of the William K. Warren Foundation, received a Bachelor's Degree in Business from the University of Notre Dame in 1956, where he served as president of his senior class. He and his wife, Suzanne, live in Tulsa, Oklahoma. Mr. Warren currently serves as Chairman of The William K. Warren Medical Research Center and of the Board of Warren American Oil Company. He is also a board member for numerous companies and universities. His vision led to the creation of the world-class Laureate Psychiatric Clinic and Hospital and the Laureate Institute for Brain Research.

Prevention and cure of mental illness tops the list of Mr. Warren's primary medical research interests and concerns. In 1992, Mr. Warren received the Nathan S. Kline Medal of Merit from the International Committee Against Mental Illness at the World Health Organization meeting for his commitment toward improving patient care, medical education and research in mental illness. In 1997, he and Suzanne received the Cole Award of Excellence from the Alzheimer's Association for their philanthropy, and in 2001 they were honored for their efforts on behalf of the Mental Health Association in Tulsa.

This conference series bears Mr. Warren's name and is dedicated to him in recognition of his long-range vision for medical research and his continuous provision of research support to improve the health of all people, particularly those with mental illness.

Tuesday, October 7, 2014

David Watson, Ph.D.,

*“An integrative model of personality,
emotion and psychopathology”*

Three Learning Objectives:

1. Classify the relations among different types of mental disorders
2. Identify key relations between personality traits and mental disorders
3. Describe the nature of emotional dysfunction in psychopathology

*Registration form located inside
back cover or call Karen Cochran,
918-494-6490.*

David Watson, Ph.D. is the Andrew J. McKenna Family Professor of Psychology at the University of Notre Dame and Co-Director of the Center for Advanced Measurement of Personality and Psychopathology (CAMPP). He previously was the F. Wendell Miller Professor of Psychology at the University of Iowa and was the Editor-in-Chief of the *Journal of Abnormal Psychology* from 2006 through 2011.

Dr. Watson's primary research interests focus on the relations among mood, personality and psychopathology. His research has made significant contributions to understanding the connections between mood and influences such as physical activity, social interaction, sleep, circadian rhythms and stressful life events. His research has examined personality stability versus change over the life span and our ability to perceive personality accurately in others. Much of his recent work has investigated how individual differences in temperament and personality influence a person's risk for major forms of psychopathology, including depression, anxiety disorders and bipolar disorder.

Laureate Institute for Brain Research Opened May 1, 2009

Laureate Institute for Brain Research currently houses a multidisciplinary team of scientists and clinical research staff who will apply neuroimaging, genetic, pharmacological and neuropsychological tools to investigate the biology of neuropsychiatric disorders. The Institute's creation was supported by the William K. Warren Foundation for the purpose of conducting studies aimed at developing more effective treatments or prevention strategies for these disorders. The studies will be led by scientists from a range of backgrounds, including physics, cognitive neuroscience, psychology, psychiatry, developmental neuroscience, computer science and genetics.

Accreditation

Physicians: Saint Francis Health System is accredited by the Oklahoma State Medical Association to sponsor continuing medical education for physicians.

Saint Francis Health System designates this live activity for a maximum of 1 AMA PRA Category 1 credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Psychologists: The Oklahoma State Board of Examiners of Psychologists recognizes AMA PRA Category 1 credit(s)™. Each activity is designated 1 AMA PRA Category 1 credit™.

Social Workers: Saint Francis Health System Department of Education, Tulsa, Oklahoma, is accredited as a provider of continuing education for social workers by the Board of Licensed Social Workers, State of Oklahoma (provider number 20140007). (1.0 contact hour)

LPC's and LMFT's: Application has been made to the State Board of Behavioral Health Licensure (BBHL) for 1 hour of CE.

CADC's and LADC's: Laureate Psychiatric Clinic and Hospital is accredited as a provider of continuing education programs for CADCs and LADCs through the *Oklahoma Board of Licensed Alcohol and Drug Counselors*. (1.0 hour)

Emergency calls should be directed to (918) 494-1190.

Parking

The presentations will be held in the Laureate Conference Center, 6655 South Yale.

Visiting participants can park on the south side of the Outpatient Clinic Building and in the northwest lot of the Warren Clinic Tower (6600 South Yale). Shuttles will be provided to take participants to and from the conference.

Registration

11:00 a.m. – Registration (Lunch will be provided ONLY to those who have registered.)

12:00 p.m. – 1:00 p.m. Presentation

- All conferences will be held at the Laureate Conference Center.
- Registration is required one week prior to each presentation date.
- To register, complete and mail or fax the registration form to address below.
- There is NO attendance fee.
- Copy this form for each registration.

I will be requesting continuing education for (check one):

Physicians Psychologists LPC's/LMFT's

Social Workers CADC's and LADC's
